# CALIFORNIA PLAYGROUND SAFETY REGULATIONS

**Don't let playground safety rest on your shoulders – hire a professional today!**

- ✓ The regulations apply to all playgrounds open to the public including *church, subdivision, child care setting, and any public agency including state, city, county, school district, and any other district.*
- ✓ Public playgrounds must comply with all playground related specifications of ASTM and CPSC, the two standards required by the state of California.
- ✓ Before a playground is open to the public, it must be inspected and approved by a NPSI Certified Playground Safety Inspector. Installation by a Manufacturer authorized installer is not sufficient.

Craig Faitel, CPSI

### Qualifications:

Craig Faitel has been a professional consultant for over 25 years working with organizations of all sizes. He has audited and inspected hundreds of different types of equipment and areas. He has worked for the nation's largest playground manufacturer in design and sales consulting. He is a CERTIFIED PLAYGROUND SAFETY INSPECTOR, creator of many instructional videos and blogs. Craig is a member of the National Playground Builders Association, California Parks and Recreation Society CPRS.
